OUR IDEA: Study Resource Aggregator + Roadmap

VISION STATEMENT: We want to change how

IDEA PROPERTIES:

- An application that
- Gives roadmap and provides educational resources
- Be able to add results to favourites
- Youtube videos
- Google search results
- Suggested related topics
-

TARGET CLIENT PROPERTIES

- Client(s) must find product useful, so therefore must be a high school / university student
- Client(s) must know how to use and navigate AI to get what they want.
Therefore, the target audience for this is a bit younger (late teen to young adult).

- The *Target Audience* is preferably one in STEM as the product would work better than a person using it not in STEM.
